DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Species 3 in Paper dated 8-3-07 is acknowledged.
The traversal is on the ground(s) that the Species 1, 2 and 3 previously indicated by the examiner in papers dated 7-10-07 have figures that relate to only one species having figures 1a-d, 2a-b, 3a-b, 6 and 7a-b. The examiner agrees with the figures relating to a single Species.
2. Applicant's arguments concerning the Species containing figures 4 and 5 is seen to be based upon applicant's belief that the search and examination of the species relating to figures 4 and 5 would not be a burden. The office's position, as noted on page 4, line 11 of the previous office action, is that different Species having structure that employs different search queries are deemed to be a burden by the office. The contact in the through hole requires employing a different search queries and is therefore seen to be properly restricted.
3. Applicant's cancellation of claims 11-13 and withdrawal of claims 4, 5 and 14 are seen to be made without pointing out supposed errors in the restriction requirement. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
4. The requirement is still deemed proper and is therefore made FINAL
5. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claim 14, directed to the linking claim is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

6. This application is in condition for allowance except for the presence of claim(s) 4 and 5 directed to non-elected Species containing figures 4 and 5. This seen as an election that was non-elected without traverse. Accordingly, claim(s) 4 and 5 has (have) been cancelled.

EXAMINER'S AMENDMENT

■ An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In view of paragraph 6 above, the application has been amended as follows:

***** CANCEL CLAIMS 4 AND 5.

Reasons for Allowance

- The following is an examiner's statement of reasons for allowance:

The prior art does not show the first contact surfaces being aligned in a row, and the second contact surfaces being positioned alternately toward a front and rear, with respect to a direction of insertion of the first connector with the second connector in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- Any inquiry concerning this communication or earlier communications from the examiner should be directed to James R. Harvey whose telephone number is 571-272-2007. The examiner can normally be reached from 8:00 A.M. to 5:00 P.M.
